***** WARNING *****

This is a Department of Defense Computer System. This computer system, including all related equipment, networks, and network devices (specifically including Internet access) are provided only for authorized U.S. Government use. DoD computer systems may be monitored for all lawful purposes, including to ensure that their use is authorized, for management of the system, to facilitate protection against unauthorized access, and to verify security procedures, survivability, and operational security. Monitoring includes active attacks by authorized DoD entities to test or verify the security of this system. During monitoring, information may be examined, recorded, copied and used for authorized purposes. All information, including personal information, placed or sent over this system may be monitored.

Use of this DoD computer system, authorized or unauthorized, constitutes consent to monitoring of this system. Unauthorized use may subject you to criminal prosecution. Evidence of unauthorized use collected during monitoring may be used for administrative, criminal, or other adverse action. Use of this system constitutes consent to monitoring for these purposes.

Defense Security Assistance Management System

United States of America
Letter of Offer and Acceptance (LOA)

BN-D-SXA

DISAM CF SEMINAR-AIR FORCE

Based on (DISAM) Government of Bandaria, Ltr, March 1, 2003

Pursuant to the Arms Export Control Act, the Government of the United States (USG) offers to sell to the Embassy of Bandaria Office of the Air Attache 1234 Massachusetts Ave, NW Washington, DC 29999, the defense articles or defense services (which may include defense design and construction services) collectively referred to as "items," set forth herein, subject to the provisions, terms, and conditions in this LOA.

This LOA is for Q-43 SUPERHAWK Helicopters (4) in flyaway condition with installed T700-GE-701C engines, spare turbine engines (2), two years initial spares, (continued on page 2)

Estimated Cost: \$28,111,936

Initial Deposit: \$691,706

Terms of Sale:

Cash Prior to Delivery

Dependable Undertaking

Congressional Notification: 03-999

This offer expires on 1 September 2003. Unless a request for extension is made by the Purchaser and granted by the USG, the offer will terminate on the expiration date.

This LOA consists of page 1 through page 10.

The undersigned are authorized representatives of their Governments and hereby offer and accept, respectively, this LOA:

**Explore
Consolidation
Of
Four Separate
Case Execution
Legacy Systems**

- **Improves Support to International Customers**
- **Improves Quality and Timeliness of Information**
- **Standardization**
- **Integration**
- **Allows continuous Business Process Reengineering (BPR)**

Source: [http://www.dsca.osd.mil/sc_conf_2002/CEMIS%20\(Freda%20Lodge\).ppt](http://www.dsca.osd.mil/sc_conf_2002/CEMIS%20(Freda%20Lodge).ppt)

Re-Host/Modernize Option

Phase One: Re-host

- Takes 4 existing legacy systems in current databases and languages:
- Translates each into C++ or Java on Oracle database.
- Uses “artificial intelligence” tool vs. manual code translation.
- Turn off legacy systems.
- Result: Still 4 separate systems doing same things, but now in one (same) modern language and database.

Phase Two: Refactor/Web-Enable

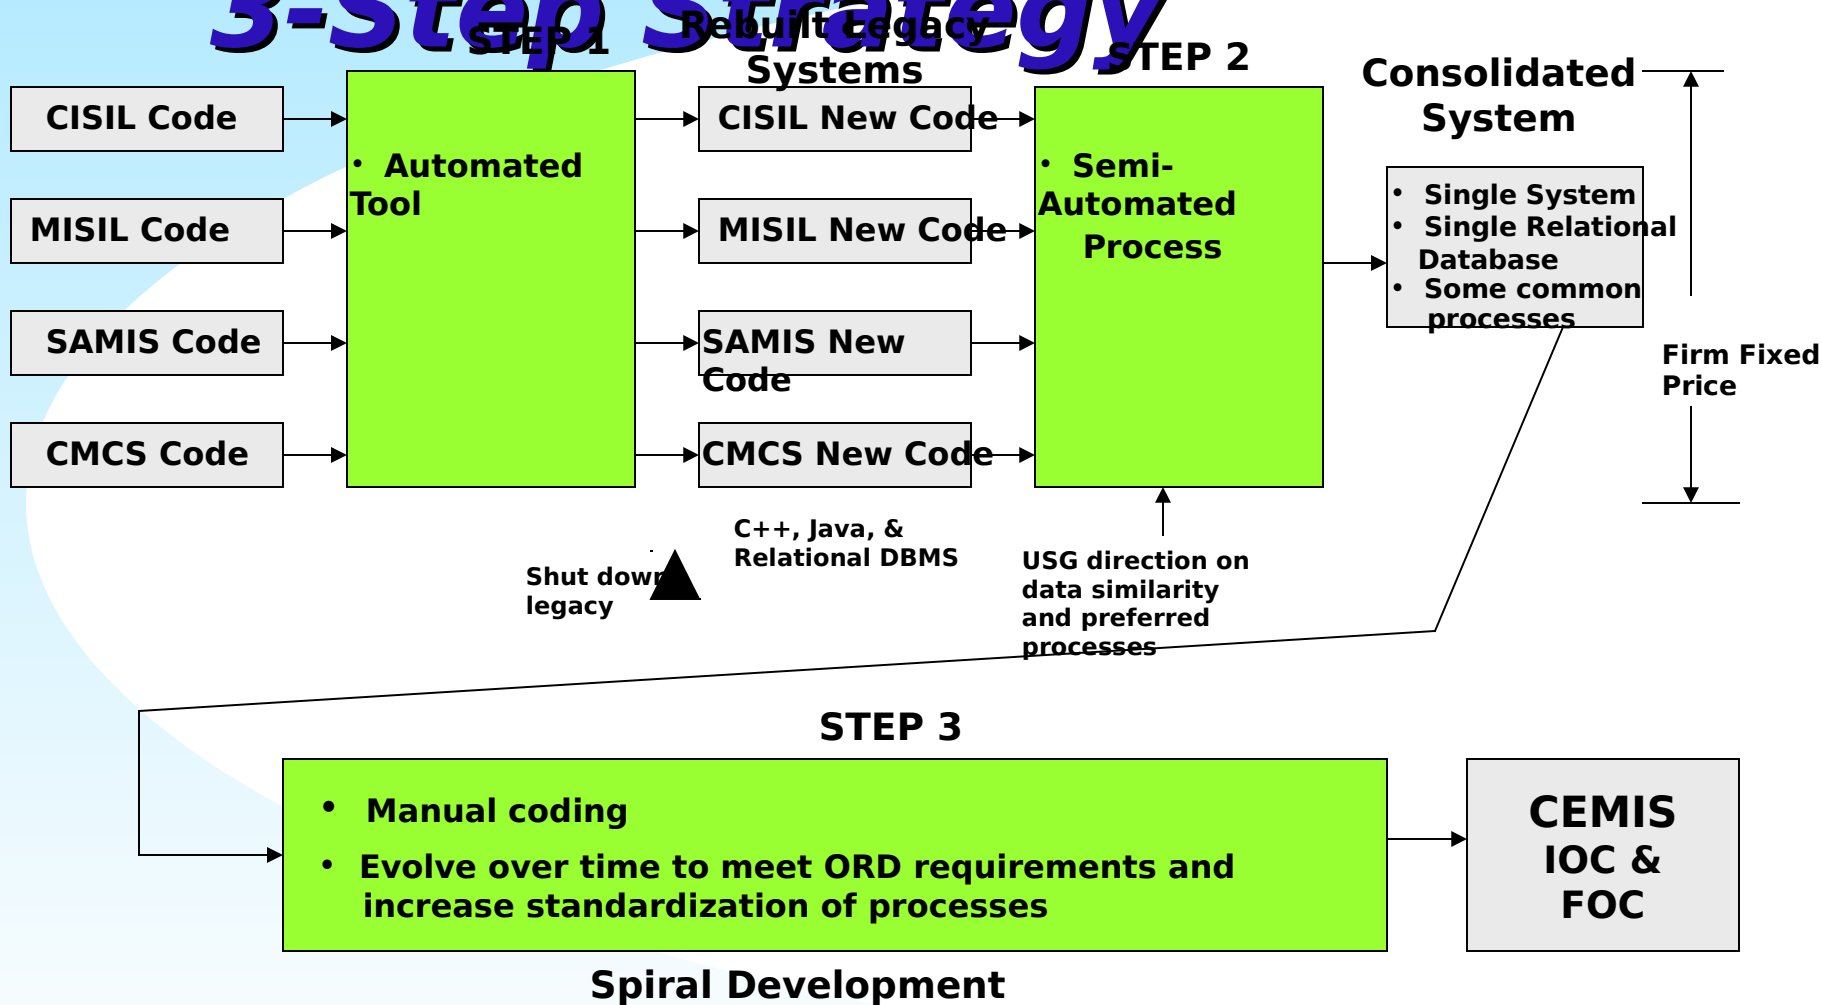

- Consolidate the 4 separate systems into one system and web-enable.
- Eliminate redundant code; choose best business processes among MILDEPs
- Result: One database for all 3 MILDEPs.

Phase Three: Modernize

- Add in “Modification” and “New Development” ORD requirements based on affordability and priority.

The Re-host and Modernize 3-Step Strategy

Re-Host/Modernize Option (Cont)

- Many questions/variations on process
 - **When do we start?**
 - **FY 04 planning only, start in FY 05?**
 - **Begin conversion in FY 04?**
 - **All four systems simultaneously?**
 - **One system conversion as pilot? If yes, which system?**
 - **Role of functional users?**
 - **System testing/performance testing questions need to be How/when to standardize existing MILDEP processes to eliminate redundancy.**
 - **resolved.**
- Acquisition strategy update to DSCA scheduled 8 Sep 03; should answer many of these questions.

Security Assistance Information Portal (SCIP)

Security Cooperation Information Portal (SCIP)

Portal is the short-term solution; CEMIS is the long-term solution (Portal will be deployed in 4 phases: Oct 02 - Apr 03)

Concept:

- **Find a quick, easy, and cost efficient way to provide timely information to the International Customer**
- **Satisfy required security considerations.**
- **Draw upon information in the current case execution legacy systems: CISIL, MISIL, SAMIS/CMCS, as well as DIFS and selected portions of DSAMS**

Extracts**

SCIP Benefits

- Portal will allow users to do queries and reports, requisitions, SDRs, LOA data, freight tracking, etc.
- *First* “Tri-Service” consolidated view of Legacy Data
- *First* International Customer view of DSAMS Data
- Potential savings across community
 - Manpower: Customer self-serve data retrieval vice request to ILCO
 - Time: Self-serve data retrieval vice request and wait
- Design is re-usable in future CEMIS environment
 - Consistent user interface
 - May reduce report/query development costs

Security Cooperation Information Portal (SCIP)

U.S. Government Computer Use

This is a Department of Defense Computer System. This computer system, including all related equipment, networks, and network devices (specifically including Internet access) are provided only for authorized U.S. Government use. DoD computer systems may be monitored for all lawful purposes, including to ensure that their use is authorized, for management of the system, to facilitate protection against unauthorized access, and to verify security procedures, survivability, and operational security. Monitoring includes active attacks by authorized DoD entities to test or verify the security of this system. During monitoring, information may be examined, recorded, copied and used for authorized purposes. All information, including personal information, placed or sent over this system may be monitored.

Use of this DoD computer system, authorized or unauthorized, constitutes consent to monitoring of this system. Unauthorized use may subject you to criminal prosecution. Evidence of unauthorized use collected during monitoring may be used for administrative, criminal, or other adverse action. Use of this system constitutes consent to monitoring for these purposes.

[Please read this Privacy and Security Notice.](#)

Continue

SCIP -

How do I get connected?

- DSCA
 - Will initiate a Portal publicity campaign
 - Will provide Registration Request forms electronically to perspective users
 - Will establish User Access records and provide SecurID tokens, where required
- Portal Users/Customers
 - Will “authenticate” users prior to DSCA establishing Customer portal accounts

DISAM/DSCA Web Site Resources

<http://www.disam.dsca.mil/>

<http://www.dsca.mil/>

The screenshot shows the DISAM website homepage. At the top left is the DISAM logo. To its right is the text "Welcome to the Defense Institute of Security Assistance Management". Below this is a navigation bar with links: "Latest SAMM", "DISAM Journal", "What is Security Assistance?", "Int'l Trng Resources", "DIIS", "DSAMS", and "Search". On the left side, there is a vertical menu with links: "Home", "Ask an Instructor", "Registration", "Student Info", "Courses", "Publications", "Int'l Trng Mgmt", "Tech Spt & Dev", "Distance Learning", "Research", "External Links", and "DSCA". Below this menu is a circular "ACCREDITED" seal. The main content area features the "The DISAM Mission Statement" and a photograph of a large, modern building with a curved roof, surrounded by trees and a paved walkway.

The screenshot shows the DSCA website homepage. At the top left is the DSCA logo. To its right is the text "Defense Security Cooperation Agency". Below this is a navigation bar with links: "LINKS", "ORGANIZATION", "BACKGROUND", and "PUBLICATIONS AND POLICY". The main content area is divided into three columns. The left column has a "SERVICES" section with links: "Registration", "Student Info", "Courses", "Publications", "Int'l Trng Mgmt", "Tech Spt & Dev", "Distance Learning", "Research", "External Links", and "DSCA". The middle column has a "WHAT'S NEW" section with links: "DISAM 2001 DSCA Guidelines for Foreign Military Financing of Force", "Disarmament Handbook", "U.S. Air Force General to Retire", "Customer Guide to the U.S. Security Assistance Program", and "On December 7, 2001, Director DSCA approved a web-based Guide to U.S. Security Assistance Programs". The right column has a "SC COMMUNITY" section with links: "E-Learning Now Available with DISAM", "DISAM inaugurated its first E-Learning course over the internet on January 11, 2002. The course, entitled the Security Assistance Management Orientation Course (SAMOC), replaces DSCA's previous Virtual Classroom with an official catalog course. This course is an ideal starting point for both military and civilian personnel, stationed overseas or in CONUS, who are new to security assistance and have not received resident training at DISAM. SAMOC is roughly equivalent to the resident DISAM SAM-CO course, takes about 30 hours to complete, and concludes with an online test. We invite you to visit the new Distance Learning home page for details. (more)", "Security Cooperation Conference 2001", and "Highlights from DSCA's Security".

Chapter 7

Preparation and Processing of FMS Cases

Section 700 -- General Information, FMS Agreements

70001 -- Purpose.

The purpose of this section is to provide background, definitions and policy which apply to FMS Agreements.

70002 -- Background/Definitions.

A. Types of Requests. FMS customers may request P&A data (for preliminary planning) or an LOA (when plans to purchase defense articles or services are relatively firm). All requests, no matter how informal, must be consistent with the provisions for processing these data.

1. P&A Data. Price and Availability estimates reflect rough order magnitude data, provided for planning purposes, showing projected availabilities and estimated costs for defense articles or services. P&A will normally be provided within 45 days of receipt of the LOR. P&A data are not normally valid for use in preparation of an LOA. To avoid confusion, the term P&A should not be used in reference to data developed for completion of an LOA, this should be referred to as LOA data.

Defense Security Cooperation Agency
NEWS RELEASE

On the web: <http://www.dsca.mil>

Media/Public Contact: (703) 601-3670

Date: 3 October 2003

Transmittal No. 04-02

EGYPT – Co-Production of M1A1 Tanks and Upgrades

On 3 October 2003, the Defense Security Cooperation Agency notified Congress of a possible Foreign Military Sale to Egypt of a Co-production of M1A1 Tanks and upgrades as well as associated equipment and services. The total value, if all options are exercised, could be as high as \$920 million.

The Government of Egypt has requested a co-production program for the possible sale of 125 M1A1 Abrams tank kits each with Commander's Independent Thermal Viewer, Firepower Enhancement Package and armor upgrades. Also included: 125 M256 Armament Systems, 125 M2 .50 caliber machine guns, 250 M204 7.62mm machine guns, spare and repair parts, special tool and test equipment, personnel training and equipment, publications, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$920 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt is demilitarizing its Soviet fleet. This proposed sale will increase the quantity of the Abrams tank co-production program, started in 1988, from the current level of 755 tanks, to 880 tanks. The additional M1A1 tanks will modernize Egypt's tank fleet. Egypt, which has already co-produced the M1A1 Abrams tanks, will have no difficulty absorbing the additional tanks.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be General Dynamics of Sterling Heights, Michigan. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of up to 40 U.S. contractor representatives for up to two years in Egypt. The 6 U.S. Government representatives already in country who currently manage the M1A1 and M88A2 HERCULES co-production programs will also manage this program for production and fielding.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.
